

C2O® Teams Up With Do-It Corporation for Two Retail Display Projects

Do-It Corporation provided C2O with two simple and attractive display options for their Baked Coconut Chips and Pure Coconut Water. Both options increase product message along with attention received from customers.

C2O Pure Coconut Water PWB Printed Wobbler

Do-It's PWB Printed Wobbler is an easy way to attract attention in a crowded drink aisle. The wobblers deliver C2O's attractive branding in glossy full-color. Installation is quick. The wobblers slide into a shelf strip or the adhesive can be used to attach it to any shelf.

C2O Baked Coconut Chips MLC Printed Header

Do-It's MLC Printed Header and 2-80 Display Strip get C2O Baked Coconut Chips off the shelf and into store aisles. The MLC printed header provides added product brand message for C2O. Adhered to the 2-80 strip and using a simple "S" hook, twelve bags of Baked Coconut Chips can be displayed anywhere in the store.
