

# Do-It Corporation Hang Tab Hangs ... and Seals BIC 60 Count Pencil Box

By using a Do-It hang tab to hang its 60 count box of mechanical pencils, BIC gained an added benefit — not only does Do-It's R-KHH Slot Style Hang Tab easily hang the 14 ounce box, it also seals the box top.

The R-KHH is applied to the top and folds to adhere to the back of the box. The hang tab lies flat allowing BIC to continue to use its existing master carton packaging.

At the store, the hang tab can remain flat for shelf placement or fold up for hanging. The centered hang tab allows the box to hang straight on the peg hook and the clear material provides visibility to printed information contained inside.

Do-It's R-KHH Hang Tab is applied to the box top and folds to seal securely. The hang tab lies flat until folded up at the store.
