Secure Your Shelf Space

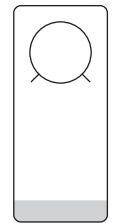

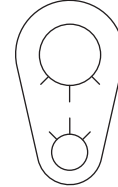

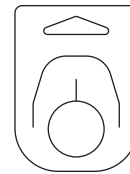

One Small Piece of Plastic Can Make a Big Difference!

Do-It has hundreds of existing styles available to provide you with a quick, creative way to hang or promote your product, but there are times when you need a custom solution. Use the charts and ideas on this page to guide you toward the right bottle neck hang tab for your need. Then give us a call ... we'll do the rest.

Step 1:

Decide how you plan to display your product in the retail environment.

- Bottle-To-Peghook
- Center Hang
- Bottle-To-Bottle
- Bottle-To-Package

Step 2:

Decide what hole size and shape would work best for your bottle product. Use the hole chart included with this mailing to determine hole sizes.

To hang your product on a peghook or display strip, we can design a hang hole to hold your product in place.

Step 3:

Decide what material and thickness your product needs. The Do-It Testing Center can help you determine the best material for your product needs.

Material Thickness:

- 10 mil
- 15 mil
- 20 mil
- 25 mil

Material Type:

- PVC
- Poly Prop
- HDPE
- PETG

Step 4:

Call 1-800-426-4822 and talk to your Do-It Sales Representative to put your ideas in action.

*Please note: Most bottle neck hang tabs are applied after the cap has been applied. So, while most bottle neck sizes are standard sizes, cap sizes vary widely. Please take this into consideration when sizing your bottle neck hang tab.
