

Kong Hangs Out With Do-It Hang Tab

When Kong Company needs to hang its canned Easy Treat dog treat it uses a Do-It JBA Bottle Neck Hang Tab.

Ideal to display various sizes of Kong's flavored spray treat, Do-It's ejected hole hang tab slips over the rim of the can and under the cap.

This allows for easy hand application and the knowledge that the hang tab will securely hang the cans in any retail environment.

In today's booming pet product marketplace, Kong can have peace of mind that their canned products will be hanging where customers will see it.

Kong uses the JBA Hang Tab to hang two sizes of their "Easy Treat" dog treat.
